LEUCHTENBERG'S
GLAD GARDENS.

GREETINGS

It is our pleasure to extend our sincere thanks and best wishes to our many Glad Fans for all the fine orders received in the past. Also for the many cards and letters commenting us on the quality of bulbs and the results obtained. I am indeed indebted to you who have loaned my catalog to your friends, which has given us many fine orders. We are very happy to have met so many Glad Fans here in the field and at the 1958 Glad Shows, and to hear of the many Blue Ribbons won with bulbs bought from us.

I DON'T ISSUE A FALL CATALOG. I find some customers wish to place their order, or a part of it before our catalog comes out. For the benefit of those who wish to do so can order from this catalog, and if the 1960 price on any item ordered is lower, I will either refund the difference, give overcount or do what ever you direct. If any item is higher than listed you need not pay more. Orders received in the late Summer or early Fall will have to be accepted subject to my being able to harvest sufficient stock to fill them. For I don't purchase bulbs to fill orders. All orders will be filled in order as received. If you don't see a variety listed this year that was in our last year catalog it is due to being discarded to make room for the newer Varieties. We are not listing SMALL Bulbs or Bulblets, due to the wet weather, weeds taking over, and unable to sufficient help for weeding or harvesting we lost most of our Bulblet crop. Then the early freeze stopped us from digging. If you wish you may write for quantity and prices on Small Bulbs and Bulblets, maybe I can supply you.

We live 3 miles South East of Bloomington, Illinois. We have directional signs on U. S. Highway # 150- $1\frac{1}{2}$ miles Southeast of Bloomington. Follow the signs and they will bring you to our Gardens. Visitors are always welcome.

OUR GUARENTEE We Guarentee satisfaction or money back. If you are not satisfied return the bulbs, I will cheerfully refund your money. We guarentee our bulbs true to name and free of injurious insects and any visible disease. While we haven't had any complaints about our bulbs, should you have any, please let us know and we will do all we can to satisfy you. We cannot guarentee all Bulblets to grow. Some will germinate 100%, while others will hardly germinate 25%. We cannot guarentee the Crop you will Harvest, this is beyond our control.

READ THIS BEFORE ORDERING. All Bulbs are Post Paid, except Items listed WHOLESALE. Due to the increase of Parcel Post Rates, we ask you to try and make your order at least \$3.00 IF AT ALL POSSIABLE. Cash must accompany

- 1 -

order by Personal check, Money Order, or Bank Draft. PLEASE DO NOT SEND STAMPS OR CURRENCY. As your order might get lost and we could be blamed, we don't want this to happen. We acknowledge your order as soon as received. If you don't receive an acknowledgment within 10 days, write us, maybe we didn't receive your order. All Stock is offered subject to stock on hand and prior sales. Where bulblets are listed by the pkg. it will contain 50 to 100 bulblets depending on the Variety. We give good value, we have good stock of most varieties, some are bound to be sold out before spring, so to avoid dissapointment ORDER EARLY.

NOTICE TO OUR CANADIAN CUSTOMERS.

Canadian Customers, please secure mail permits on Small Orders, Large Orders by Express.

INSPECTION. Our bulbs are all inspected carefully at digging time, and again when cleaned and graded. They are inspected in the field and storage by an AUTHORIZED STATE INSPECTOR. A Certificate of Inspection accompanies each order. With each order we also send a complete Culture Leaflet prepared by the NORTH AMERICAN GLADIOLUS COUNCIL. By following directions in this leaflet, you should be able to grow outstanding spikes.

ORDERS FOR BULBULETS CANNOT BE ACCEPTED AFTER APRIL 1 St.

Extras. We always put in some extras for you to try. It would be appreciated if you would mention afew you would like to try, we will include them if at all possiable.

BULB SIZES. Bulbs are graded in 6 sizes. No.1 - $1\frac{1}{2}$ in. an over, No. 2 - $1\frac{1}{4}$ in. - $1\frac{1}{2}$ in., No. 3 - $1 - 1\frac{1}{4}$ in., No. 4 - $3/4 - 1$ in., No. 5 - $\frac{1}{2} - 3/4$ in., No. 6 - under $\frac{1}{2}$ inch. No. 1 & 2's. are Large, No. 3's. & 4's. are Medium, No 5's & 6's. are Smalls. We ship the larger size in each class as long as they last. If Mediums are ordered we ship size 3, so if you get 2 sizes, it means we have run out of the larger size.

 PAID. \$5.00 per 100, \$3.00 per 50.

 *** PLEASE NOTICE. ***

If interested in Bulbets; Both Retail and Wholesale, write prices and
 quantities wanted.

 ***** SHIPPING NOTICE. *****

We can ship your bulbs anytime you wish, but would advise, you let us
 hold your order until early March, except to Southern States, which can
 be shipped earlier. Most of our Parcel Post is hauled by unheated Trucks,
 therefore you take the risk if they are shipped too early due to freezing
 possibilities. Please state on your order, shipping date. We watch the
 Weather Forecast and ship accordingly.

PLEASE KEEP A COPY OF YOUR ORDER.

***** YOUR FUTURE CATALOG. *****

Even though we Mimeograph our Catalog in our home, it still costs money.
 We do our best to describe each variety as we see them. We feel our Catalog
 is reaching some who are no longer interested. However if you still are in-
 rested, we want you to receive our Catalog, there is no charge for it.
 After receiving our Catalog for 4 or 5 years, we feel you should find some-
 thing interesting. But if no order is received, we shall find it necessary
 to remove your NAME FROM OUR MAILING LIST. A good way to keep your name on
 our Mailing List, is to send an order for the ALL AMERICAN Glads. You will
 probably buy them anyway. This is true, especially if you don't find any-
 thing else of interest to you.

***** GLADIOLUS CLASSIFICATION. *****

GLADS are classified in 5 sizes as follows; -

MINATURE - - 100 - Florets under $\frac{1}{2}$ inch. SMALL - - 200 - $2\frac{1}{2}$ in. through $3\frac{1}{4}$ inch. MEDIUM - - - 300 - $3\frac{1}{4}$ inch through $4\frac{3}{8}$ inch. LARGE - - - 400 - $4\frac{3}{8}$ inch through $5\frac{1}{2}$ inch. GIANT - - - 500 - $5\frac{1}{2}$ inches or larger.

For Example; CORAL ACE is 532. The 500 means it has floret size $5\frac{1}{2}$ inches or larger. The 32 means variety is a deep Salmon. The number after the Variety tells the story, of the size and color of the florets grown under average field conditions for large Bulbs.

ORTHOCLIDE GARDEN FUNGICIDE(Contains 50 % CAPTAN) For Glads.

Captan a wettable powder for the control of fungus diseases, especially botrytis, a disease that often comes in the fall, or after cold rains and spots the bloom making them look like thrip damage. Botrytis also affects other plants. By spraying before diseases start, you can have good flowers. Can be used wet or dry. Direction for uses is furnished on container. Can is POST PAID with a GLAD ORDER, but ordered seperately, POSTAGE must be included.

1 - Lb. - - - \$2.19

We are not issuing a WHOLESALE LIST this year, due to weather condition, beyond our control, which made it impossiable to weed the bulblets. Which resulted in a near 100 % bulblet crop failure. However planting stock came through better than usual, as these were weeded and cultivated, making a fine crop. However the loss of Bulblet planting stock has cut us short of Medium and Small size Bulbs. The seedlings sent to us for Trial were also failure due to weather conditions, so we cannot make a report on them. As they were planted so closed to the Bulblet stock we were unable to get them weeded and cultivated.

Wishing you a good growing Season, I hope to see you at the shows.
